

# When and where are the HazMobiles?

**20  
FEB**  
10am - 2pm

**KAIAPOI**

**27  
FEB**  
10am - 2pm

**RANGIORA**

## How can I transport my Household Hazardous Waste safely?

- All containers should be in good condition i.e. they should not have holes or be brittle.
- Solid hazardous wastes in suspect containers can be put into heavy duty plastic bags.
- If you do have a leaking container, put it into a bucket with a lid, and please remember to do this outside so that any fumes can disperse easily.
- The lids must fit tightly.
- Transport containers upright and secured in the boot so that they can't fall over or leak liquid or gas.
- Put your Household Hazardous Wastes upright into cardboard boxes. This will protect your car from leaks, and all we need to do is lift out the box at the HazMobile and you can be on your way!
- If you know the contents, label the container clearly to help the person receiving the waste.

Call the Waimakariri District Council on 311 8900 or 327 6834 or visit our website ([www.waimakariri.govt.nz](http://www.waimakariri.govt.nz)) for more information.
