6.2 Non-Financial Performance Measures as at 31 December 2015 – Maria Edgar (Corporate Planner)

Ms Maria Edgar presented this report updating the committee on progress of the non-financial performance measures, for the second quarter of the financial year.

Currently there is a review of the systems and processes for the mandatory non-financial performance measures. This will be completed before the end of March 2016 and Mr Millward confirmed that the review is based on the collection of the data and how this is undertaken. There was discussion and debate on how to interpret a complaint received, if it is signed by several (i.e. 50) people, is this considered to be one complaint, or is it 50?

Councillor Barnett noted that there appeared to be an increase in the number of complaints in the areas of water and roading. Mr Millward confirmed this is a concern, though noted that in some cases a complaint is received after the issue has been remedied. There is also the issue of whether concerns received are determined to be a complaint or a service request?

Following a query from Mayor Ayers, Mr Palmer suggested that information be provided from staff on the quality of water available at the target water levels.

Regarding the target of meetings scheduled and those actually held – Mr Palmer said it is always intended to hold meetings that are scheduled, but there are times when meetings aren’t held due to lack of business. This would mostly be a Community Board or Ward Advisory Board meeting. The percentage of items of business held In-Committee – Mayor Ayers suggested that it may be better to include the reasons for the item being public excluded, rather than the areas that the item was dealing with.
THAT the Audit Committee:

(a) **Receives** report no. 160122004554 – Non-Financial Performance Measures as at 31 December 2015.

(b) **Notes** that a review of the systems and processes for gathering the mandatory performance measures data will be completed in time for the third quarter reporting in March 2016.
