Room link

When the dividing doors between Room A and Room B are open the audio from each room can be combined and shared between the two spaces.

The shared audio will be :

Projector

Aux input sound

Wireless Mics

Select the Room link button

Press the Combine button

To link the rooms.

Green means the rooms are combined

Red means the rooms are separated

IMPORTANT: If system isn't working, please ensure the system is turned on at the wall.

Please do not turn this off at the end of your booking.
